The restaurant was reopened at the start of 2005 under a different name in order to ensure we continued to meet the discerning tastes of our guests. It was also given a revised culinary concept and a more modern look. We want guests to be pleasantly surprised by our unique culinary creations. With our light fish dishes using the finest ingredients, we aim to provide a treat for even the most demanding of gourmets.

Our new name, "Fischers Fritz" is derived from a famous German tongue twister and is designed to signify finest quality and exclusive fish dishes. In selecting this new name, our conscious aim is to fulfil the highest expectations of the gastronomic world in an entirely new way.

In redesigning the restaurant, we were bore the restaurant's long tradition with a large number of guests at all times and were careful only to make any changes after careful consideration.

Enjoy an exclusive culinary experience at Fischers Fritz.
